*The Closest Thing To Kryptonite®!*  
Glowing Paints & Products

**KRYPTAGLOW® LEADING THE WAY TO SAFETY**

**KRYPTAGLOW® SAFETY PAINTS HAVE PASSED N.Y.C. MEA STANDARDS FOR LL26 LAWS FOR SAFETY EVACUATION MARKINGS. MEA 451-05-M-2.**

**KRYPTAGLOW® SAFETY PAINTS** have specially formulated a product that has achieved some of the highest brightness ratings for safety 4 times in laboratory tests. This paint was specifically designed for Egress systems. Sold as a complete system these are the first paints to pass with a combination of bottom coat and top coat for protection giving a lasting finish for years of performance. All are Water Base products for easy clean up and easy indoor instillation even in closed areas with poor ventilation such as stairwells.

**Kryptaglow®** products have been formulated to meet and exceed the new requirements for visible markings, using these new photoluminescent pigments to formulate one of the highest performing lines of safety paints available today. These paints have passed the **MEA STANDARDS FOR N.Y.C. LL26 LAWS** 4 times. Useful in many applications industrially as well as for evacuation routing. Imagine the possibilities. Kryptaglow® is working on paints for almost every professional use. **KRYPTAGLOW® PAINTS** are designed to exceed all previous standards. Kryptaglow® is the leader in glow in the dark products.

Kryptaglow® Safety Paints for the future. Now!

**Proper application; White bottom coat #1171 Then 3 coats Kryptaglow® MEA paint next, add Clear Top Coat #1102. Follow specific MEA application Instructions required by LL26 Laws.**

**KRYPTAGLOW® MEA 1300 1300A 1300C Special Blend PAINT.** For N.Y.C. LL26 Laws. Used for wall and floor application for Egress systems. Used in combination with our Kryptaglow® White Base Coat #1171, and Kryptaglow® Topcoat #1102 seals it for easy washability. Quick Drying.

**KRYPTAGLOW® CLEAR WATERBASE TOP COAT #1102** Used for sealing our safety paints. It's specially formulated to absorb light and allow the fullest performance possible from **Kryptaglow®** Safety Paints while giving a hard surface for durability. It's also Water Base for easy clean up. Dries quickly.

**KRYPTAGLOW® WHITE Base Coat #1171** We have formulated a White Water Base bottom coat for use with our paint for MEA it's designed to seal any clean properly prepared surface for the best adherence of all Kryptaglow® Safety paints. Works as a Primer and Sealer great for porous surfaces as well. Dries in about 1 Hour.
